LETTER OF APPRECIATION

1. I hereby wish to extend my sincere admiration with much honour for the assistance provided by you to enhance the capability of medical facility at Special Forces Training School, Maduru Oya.

2. Special Forces Training School is the Prime Training Establishment which produces elite soldiers to the Special Forces. We conduct some of the toughest courses in the military; since inception of Special Forces Training School, 34 trainees died during the training due to numerous reasons and a considerable number of soldiers were injured. A reliable medical facility is a prime requirement for this school. However, the medical facility available was not sufficient to meet the demand.

3. Your precious contribution, through Mr. U.P.S. Rodrigo, enhanced the much desired capability of our medical facility. I am certain that this will definitely give a positive effect on all the trainees and will lead to boost up the morale of our soldiers in many folds. It is an indication for all of us to feel that we are not isolated and there are patriotic Sri Lankans like you who always back us up whenever we are in need.

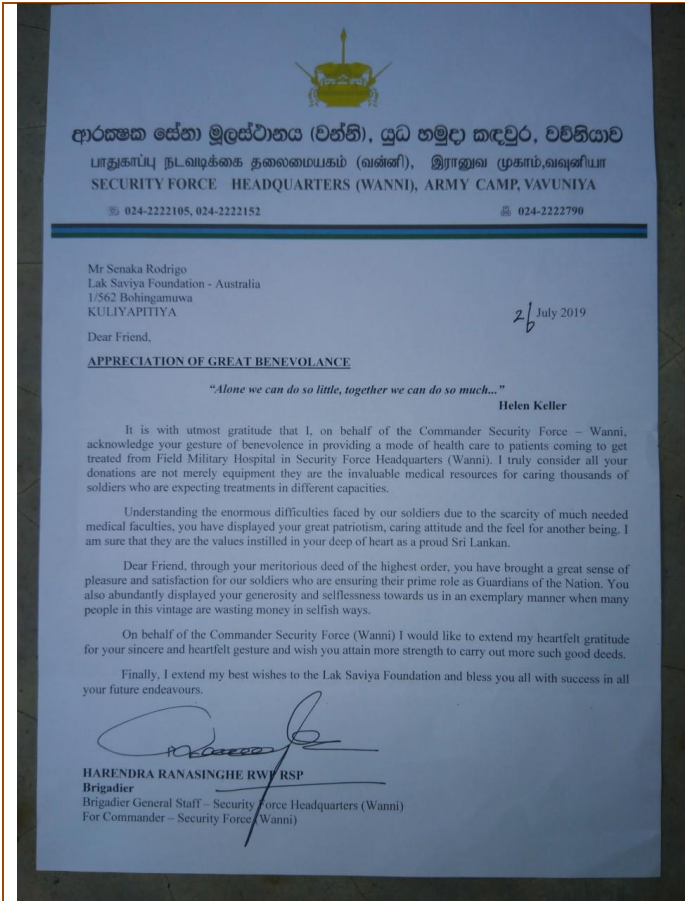

4. As the Commandant of Special Forces Training School, I am very much grateful to you for providing us with much needed assistance in a very short notice. Henceforth, your generosity will remain in the hearts of all the members of Special Forces, with great honour. Once again I extend my heartiest thanks for this meritorious deed and I wish you all the success in your future endeavors.
